

iPAY® Global Online Payment Gateway

Payments Simplified

With over 10 years of experience, Planet Payment's iPAY Gateway offers reliable PCI compliant payment solutions for e-Commerce, call center, mail-order and telephone order merchants in the US and Canada.

Payment Gateway for Credit, Debit & Electronic Check (ACH) payments

- Supports all major credit and signature debit cards including Visa®, MasterCard®, American Express®, Discover®, and JCB®
- Processes ACH payments and direct debits from bank accounts
- Certified for government and utility online bill payments

Globalize Your Business

Target new international markets and increase global sales when your international customers view pricing and pay in the currency they know best – their own! Currently available in over 60 currencies, Multi-Currency Pricing offers you the convenience of settlement and reporting in your local currency.

Payment Solutions Portal (PS Portal)

Our secure, web-based virtual terminal, PS Portal offers complete online payment functionality with no integration required. Manage transactions in real-time or via batch processing, configure your account settings, and generate online reports from the portal.

Retail stores can also leverage the PS Portal and any card swipe USB device to authorize payments over the internet!

Application Payment Interface

Customize your payment application by coding directly to iPAY's robust XML-based API. Our integration specialists and extensive library of development tools are available to assist you with this integration.

Recurring Billing and Subscription Management

Manage subscription billing and customer notices in real-time through PS Portal. Add your customers' payment and billing information, define payment schedules, offer trial periods, and track many other billing parameters. The gateway handles the rest – generating subsequent transactions based on the established schedule, and sending customer alerts that you defined.

Customizable Hosted Payment Pages

Allow your customers to purchase your products and services in any quantity using our PCI-certified hosted payment form. Simply enter appropriate product information, and HTML code is created to insert into your website.

Fraud & Security Tools

We recognize the importance of fraud prevention and security in online processing and are committed to offering superior protection to merchants and cardholders. Our suite of fraud and security tools includes:

Secure Token service, facilitate PCI compliance by no longer storing customers' sensitive card details. We will generate unique tokens for each customer and for each of their credit or electronic check payment accounts. Simply submit these tokens each time a customer makes a return purchase or payment.

3-D Secure, including Verified by Visa® and MasterCard® Secure Code™, provides an added layer of security, validating that the online shopper is actually the cardholder. Merchants are encouraged to use 3-D Secure to achieve higher coverage against fraud losses.

Enhanced Fraud Protection services, powered by Kount®, include a range of fraud monitoring and prevention services to help merchants identify and prevent suspicious transactions. Service parameters are customizable to help you auto-decision suspicious transactions for approval, decline or manual review. These services help minimize and prevent authorization and chargeback fees, while maximizing legitimate transactions.

Merchant Benefits

- Secure, Cost-Effective Payment Management
- Global Sales Optimization
