

MICROS Payment Gateway

Powered by Planet Payment®

Hospitality Payments Simplified

The MICROS Payment Gateway, powered by Planet Payment, is a fully managed payment solution offering integrated payment processing for Opera Property Management System and 9700/3700 Point-of-Sale systems. Built by MICROS and hosted by Planet Payment, the gateway provides fully integrated support for both magnetic credit and debit cards, Canadian Interac cards, as well as EMV chip-embedded card technology.

Multi-Currency Processing

The MICROS Payment Gateway solution also features Planet Payment's signature Pay In Your Currency® service which lets valued international guests enjoy the confidence and convenience of paying for their purchase, hotel stay or meal in the currency they know best – their own.

Pay In Your Currency also lets you earn attractive new profit margins on foreign transactions which help offset increased international processing fees.

Designed for Performance

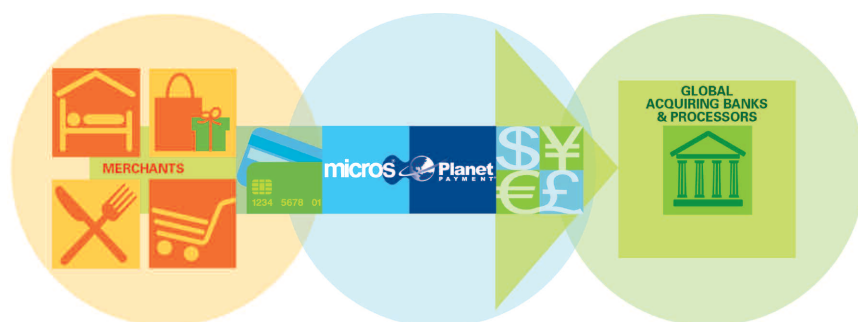

- A single, secure MICROS payment solution for all Hospitality Front Desk, Food & Beverage payments
- Seamless integration with MICROS POS and PMS solutions eliminates the need for a third-party payment gateway.
- A fully integrated mag stripe and smart card solution eliminates manual reconciliation required by stand-alone POS terminals
- Faster authorization times; 1-2 seconds, an 80% speed reduction
- Proven technology processing hundreds of thousands of transactions daily

Secured by Planet Payment

- Single interface to over 45 international acquiring banks and processors
- Hosted in Planet Payment's PCI-certified, global data centers
- Cardholder data tokenization and transaction encryption offers enhanced transaction security and facilitates PCI compliance
- A fully managed solution hosted by Planet Payment provides rapid implementation
- Sophisticated, online reporting enables business views across any cross-section of hotel properties on a country, regional or pan-regional basis, in any currency
- Robust data analytics help you tailor enhanced marketing programs that attract more international guests

Planet Payment/MICROS Payment Gateway Solution

- Fully managed solution for both MICROS PMS and food/beverage point of sales systems
- Domestic and multi-currency transaction processing and/or routing, consolidated reporting
- Single interface to over 45 international acquiring banks and processors

Benefits

- Streamlined, more cost-effective payment processing
- Supports EMV (chip/pin) and magnetic stripe cards
- Eases PCI compliance with cardholder tokenization
- Pay In Your Currency enhances customer service, improves profitability
