

MICROS Payment Gateway

Solutions Tailored to Meet Your Customer's Needs

Currency-Neutral Platform

As one of the world's leading providers of electronic commerce solutions, Planet Payment® is committed to developing programs that meet the needs of Financial Institutions and other payment services providers – with the overarching goal of new growth opportunities and enhanced profitability. Our proprietary currency-neutral platform offers seamless delivery of end-to-end processing solutions around the world. With a single global processing platform, we are able to respond quickly to emerging technology, evolving security and card scheme standards.

Along that line, Planet Payment has partnered with MICROS, the world's leading developer of enterprise applications serving the hospitality and specialty retail industries, to develop the MICROS Payment Gateway (MPG). The MPG is a fully-managed payment solution – hosted by Planet Payment that enables integrated multi-currency payment processing for all MICROS POS AND PMS products.

Planet Payment's Pay in Your Currency solution is fully integrated with the MICROS Payment Gateway. Secured by Planet Payment, our cardholder data tokenization and transaction encryption offers enhanced payment security and facilitates PCI compliance. Our fully managed solution provides rapid implementation, with sophisticated online reporting that enables business views across any cross-section of hotel or restaurant properties on a country, regional or pan-regional basis, in any currency.
