### How Pay In Your Currency Works

Offering this personalized pricing service and experiencing the benefits is easy. The process is fully automated. Eligible foreign MasterCard® and Visa® transactions are identified after the card is swiped or keyed.

- 1 The receipt displays the foreign exchange rate and the total in US dollars and the guest's home currency. The guest simply marks an X next to their home currency and signs the receipt
- 2 At the POS prompt, the front desk clerk confirms the guest's currency choice
- 3 The final amount on the receipt matches the amount on the customer's credit card billing statement.

Pay In Your Currency provides certainty and convenience to your international guests when they pay in their home currency. For you, this superior pricing service offers a new revenue stream, helps you attract new international customers and drives return visits from valued guests!
