For the international traveler, DCC at ATMs provides an incentive to return to the ATM for their next withdrawal. In addition, the ATM provider has the added benefit of earning additional margin on each foreign-card transaction.

DCC at ATMs provides choice, clarity and convenience to international customers who believe cash is king! For the provider, DCC at ATMs provides a potential new revenue stream and the ability to attract new international customers.

### How DCC at ATMs Works

- A DCC at ATMs transaction begins immediately when a MasterCard® is inserted at the ATM. The ATM automatically determines if the card is eligible for DCC at ATMs.
- The ATM screen will display the withdrawal total in the local currency, the DCC at ATMs exchange rate and the customer's home currency. The amount on the ATM receipt will match the amount reflected on the customer's statement.

### Customer Benefits
