

MICROS® PAYMENT GATEWAY

The MICROS Payment Gateway, powered by Planet Payment®, is a fully managed payment solution offering integrated payment processing for Opera Property Management System and 9700/3700 Point-of-Sale systems. Built by MICROS and hosted by Planet Payment, the gateway provides fully integrated support for credit and debit cards, Canadian Interac® cards, and EMV chip-embedded card technology.

Multi-Currency Processing

The MICROS Payment Gateway solution also features Planet Payment's signature Pay In Your Currency® service which provides valued international guests the confidence and convenience of paying for their purchase,

hotel stay or meal in the currency they know best – their own.

With Pay In Your Currency, businesses can earn additional profit margin on each Pay In Your Currency transaction, while continuing to be paid in their local currency.

Designed for Performance

- A single, secure MICROS payment solution for all hospitality front desk, retail and food and beverage payments
- Seamless integration with MICROS POS and PMS solutions eliminates the need for a third-party payment gateway.
- A fully integrated mag stripe and smart card solution eliminates manual reconciliation required by stand-alone POS terminals

- Faster authorization times; 1-2 seconds, an 80% speed reduction
- Proven technology processing hundreds of thousands of transactions daily

Secured by Planet Payment

- Single interface to more than 45 international acquiring banks and processors
- Hosted in Planet Payment's PCI-certified, global data centers
- Cardholder data tokenization and transaction encryption offers enhanced transaction security and facilitates PCI compliance

Planet Payment/MICROS Payment Gateway Solution

- Fully managed solution for both MICROS PMS and food/beverage point of sales systems
- Domestic and multi-currency transaction processing and/or routing, consolidated reporting
- Single interface to more than 45 international acquiring banks and processors

Benefits

- Streamlined, more cost-effective payment processing
- Supports EMV (chip/pin) and magnetic stripe cards
- Eases PCI compliance with cardholder tokenization
- Pay In Your Currency enhances customer service, improves profitability
